

InCoag

Fast, simple coagulation testing

Rapidly identify clotting abnormalities with InCoag, an easy-to-use coagulation analyser designed for canine and feline aPTT/PT testing.

Gain important insights quickly

- ✓ Dependable^{1,2} results from just 100 µL of citrated whole blood*
- ✓ Detect coagulopathies associated with a range of conditions
- ✓ Ideal for pre-anaesthetic and emergency care

Maximise efficiency with a streamlined workflow

- ✓ Cartridge-based testing with a simple 5-step process
- ✓ Compact design with a small footprint
- ✓ Manufacturer-validated citrated tubes provided

Enhance clinic capabilities and patient care

- ✓ Intuitive user interface requires minimal training
- ✓ Fast, in-clinic testing helps ensure continuous care
- ✓ State-of-the-art analyser delivers accurate performance¹

*Tube must be filled to 300 µL.
aPTT, activated partial thromboplastin time; PT, prothrombin time
