ZOETIS DIAGNOSTICS

vetscan HM5

Gain a complete hematology picture in minutes

Introducing the best-in-class hematology solution from Zoetis — a portfolio of integrated products and services that bring reference-lab quality² hematology results and specialist insights directly into your clinic to help you improve patient outcomes.

Comprehensive

Pair Vetscan HM5 CBC analysis with Vetscan Imagyst® AI Blood Smear estimated WBC differential and cell counts for a complete hematology picture at the point of care.

Connected

Access hematology reports anytime, anywhere on ZoetisDx.com, and connect with a global network of experts for remote review of AI Blood Smear samples.[†]

Supported

Review the images to make your diagnoses and add on remote expert review whenever you need it, so you can treat patients quickly and with confidence.

POWERED BY

Bringing specialist-level medicine to your clinic

The Zoetis Virtual Laboratory offers deeper diagnostic insights that elevate patient care through combined in-clinic and online workflows. With point-of-care analyzers like the Vetscan HM5, reference laboratory services and anytime specialist support through clinical consultations and pathologist reviews, it empowers you to make fast, confident treatment decisions from the very first appointment.
